

Letter from
United Nations Environment Programme
Nairobi, Kenya

Dear Sir/Madam,

I have the pleasure to inform you that the United Nations Environment Programme (UNEP) has officially recognized the Globetree Foundation's outstanding environmental achievements by nominating the organization to its Global 500 Roll of Honour. Please accept my heartfelt congratulations.

As a defender of the environment, the Globetree Foundation is a partner in the struggle for environmental protection. Its members did not seek rewards, but their achievements richly deserve to be recognized. UNEP is indeed honoured to pay tribute to the organization's commitment and we hope that this recognition will encourage its members to continue their work.

I hope that, as a new laureate, the Globetree Foundation will become part of a growing global network of allies assisting UNEP in its responsibilities for the care of our planet.

The award will be presented in Adelaide, Australia, during the World Environmental Day ceremonies, and your organization will be contacted later with more details and information on the Global 500 programme and the ceremony.

Yours sincerely,

Klaus Toepfer
Executive Director
